Contracts are the new replacement to escrow and courier missions. This guide will start you in learning how to make, use, buy, sell, trade.... using the new system. To setup more than one public contract you need the Contracts skill. This skill will let you create 3 contracts per level.

[Linkage](#)

### **Creating a new contract**

Open your contracts window and click on create new contract. You should get a screen that looks like this. You will need to decide what type of contract you want to create.

[Linkage](#)

**Auction:** lets you auction items with a starting bid, buy out, for up to 1 week.

**Item Exchange:** lets you sell items for isk, or trade items for other items as well as isk.

**Courier:** lets you pay other players to move good for you from one place to another.

**Loan:** lets you setup a lone to a specific player or corp.

**Free form:** Came up with one example of a freeform contract, hope you find more.

Decide your availability. Public makes it open to anyone in the game, Loans cannot be made public as far as i can tell. Private allows you to restrict your contract to a player or corp. My corp and My alliance restrict your contracts to your corporation or alliance.

If you have the contracts role for your corp you can issue the contract on behalf of your corporation buy checking the last box.

### **Setting up an Auction:**

Select an Auction and availability.

Select an item you want to auction [Linkage](#)

Set the starting bid (optional) and the buyout (optional), Set how long you want the auction to run, and then give it a help full description. [Linkage](#)

Review the terms of the contract make sure you did not screw anything up and then click Finish. [Linkage](#)

### **Setting up a Sell order:**

Select Item Exchange, and the availability.

Select an Item you want to sell. [Linkage](#)

Enter in an amount of ISK you want to receive for the item, set the amount of time the contract will be open, and give it a help full description [Linkage](#)

Review the terms of the contract make sure you did not screw anything up and then click Finish. [Linkage](#)

### **Setting up a Trade:**

Select Item Exchange, and the availability.

Select an Item you want to trade. [Linkage](#)

Enter in an amout of ISK yoru willing to pay or receive for your item. Type in the name of the item your looking to trade for and find it on the list. Add it to your items by clicking add item. [Linkage](#) [Linkage](#)

Review the terms of the contract make sure you did not screw anything up and then click Finish. [Linkage](#)

### **Setting up a buy order:**

Select Item Exchange, and the availability.

Do not select any item.

Enter in an amount of ISK you willing to pay for your item. Type in the name of the item you looking to trade for and find it on the list. Enter a quantity, and add it to your items by clicking add item. [Linkage](#)

Review the terms of the contract make sure you did not screw anything up and then click Finish. [Linkage](#)

### **Setting up a Courier contract:**

Select Courier , and the availability.

Select an Item(s) you want to moved.

Enter the destination of the item. Enter a reward for the service, as well as the value of the item(s) as collateral. Enter an expiration and number of days to complete the mission. Add in a help full description and hit next. [Linkage](#)

Review the terms of the contract make sure you did not screw anything up and then click Finish. [Linkage](#)

### **Setting up a Loan:**

Select Loan, and enter in a name, your corp, or alliance. [Linkage](#)

Select an item if it will be loaned out. (note remove charges from ships if your loaning ships)

Enter in a price for the loan, Collateral if required (a good idea for ships), any amount of ISK that you are including. Enter an expiration for claiming the loan, and a period of time in which the loan must be repaid or items returned. Give it a help full description and hit next. [Linkage](#)

Review the terms of the contract make sure you did not screw anything up and then click Finish. [Linkage](#)

### **Creating a Merc Contract using Freeform**

Select Freeform, and the person, corp, or alliance you want the contract to go to.

[Linkage](#)

Enter in a description of the contract. [Linkage](#)

Enter in a reward, collateral if needed, expiration on accepting the contract, and time to complete the contract. [Linkage](#)

Review the terms of the contract make sure you did not screw anything up and then click Finish. [Linkage](#)

### **How to search for an item in contracts**

Select your range for contracts, station, system, region, different region (enter the one you want), issued to me, my corp, my alliance.

Select a type of contract you want to see (default is all)

If desired enter a price range or click only affordable. [Linkage](#)

Now Click the show more options arrow if your looking for something specific.

[Linkage](#)

Filter by who issued it, did not issue it, the title, and most importantly the item!  
Enter in the item your looking for, if you don't know the full name you can pick it  
from the list that is close to what you have typed. [Linkage](#)  
Once you have selected the item your looking for the results will be returned for the  
range your looking. [Linkage](#)
